

Report of “Visiting faculty – Lecture on topic: “Renewable Energy and Solar panel Applications”

Date : 02.08.2019
Time : 11.00am -12.35pm

REPORT:

The Department of Electronics and Communication Engineering has organized a enthusiastic lecture on “**Renewable Energy and Solar panel applications**” for final year and Third year students on **02.08.2019** at **ECE Seminar Hall (Room No: 112)**.

The lecture was delivered and interacted with students by **Mr.S.Sadhanandham, Deputy Manager, Wind Farm (Retired), TNPL, Karur** and **Mr.Sukumar, Electrical Engineer & Social welfare person.**

Initially **Mrs.M.Rekha, AP/ECE**, welcomed the gathering and put forth the Visiting faculties specialization to the students and faculty members in the seminar hall.

The expert persons delivered a vibrant speech and taught us to understand the needs of common people and Industries from Engineers. They delivered a various ways, **methodologies in reusing the wastage** around us and also in our campus. They **projected some videos** to encourage our students in **preparing the projects with solar panel** which may pay a way for the development of universal peoples. They too motivated the students to **prepare a documentary film** on “**Gaja cyclone and its extreme distress in Tamil Nadu**” which moves the public to extend their support for raising their day life. The final year students discussed about their project work using the concept of Solar panel and they too assured in preparing the documentary film also. Finally, **Mrs.B.Karthiga, HOD/ECE** had a discussion with them and requested them to give a motivational talk for slow learners in forthcoming series. She honored them with Thanking letter and remuneration for their enormous presence in our department.
