CORONA VIRUS AWARENESS PROGRAM

A family of viruses called corona virus are causing illness from common cold to more severe diseases worldwide. These viruses causes respiratory syndrome among humans. It creates a panic situation among the people all over the world.

The issue is going on viral so that people get physically and mentally affected that even common cold is also misreckoned that they were affected by corona virus. In order to handle the situation it is the duty of every institution to create awareness among young minds.

Behalf of Dhanalakshmi Srinivasan Engineering College, today (08.02.2020) an awareness program was conducted to inculcate the real truths about the virus, its causes and how to safeguard ourselves. Our Principal Dr.S.Durairaj, invited Dr.M. Geetharani, MBBS,DPH,MPH, Deputy Director of Health Services, Perambalur. Welcome Address delivered by Dr.K.Anbarasan,Dean/Academics, and proposed the vote of thanks.

Dr.M. Geetharani, MBBS,DPH,MPH, Deputy Director of Health Services, Perambalur addressed the gathering with a power point presentation which explains clearly about what is corona virus, emerging respiratory infectious diseases, current status etc..

In addition that Dr.M. Geetharani explained about mode of spread, preventive actions, hoe to wash hands, cough / sneezing hygiene. They inherited the knowledge of food safety practice and few home care guidelines.

The program was very effective and eye-opener for the all the participants.
