

Technical Workshop on

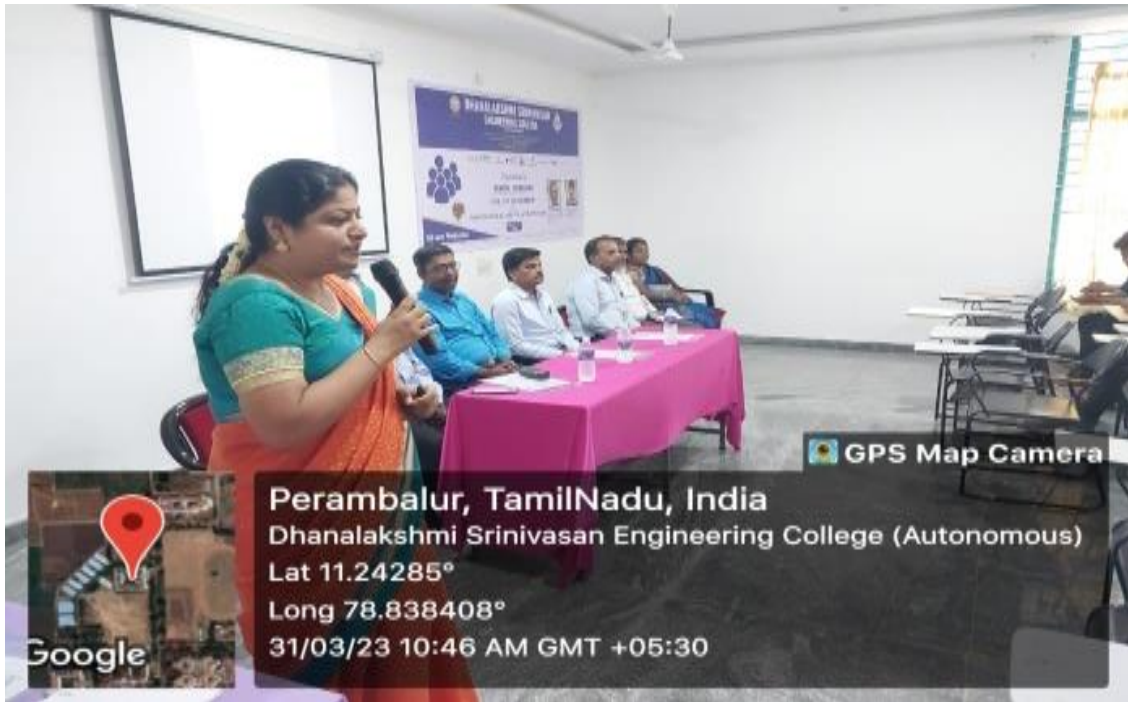

“Nano Materials and its Applications”

A technical workshop on "Nano Materials and its Applications" was successfully conducted on March 31st, 2023, by the Department of Chemical Engineering at Dhanalakshmi Srinivasan Engineering College (Autonomous), Perambalur. This workshop was presided over by **Shri. A. Srinivasan Ayya**, Honorable Chancellor of Dhanalakshmi Srinivasan University, During his address, he said that the chemical engineering department is a very special department, and this department plays a very important role in various fields, including agriculture and medicine. He said that by using the new technologies emerging in the field, students and professors should work with a sense of dedication to create new modern nanomaterials and create a new revolution in various fields, including medicine and agriculture.

In this workshop, Chief Scientist, Dr. Sivasamy, CSIR-CLRI, Chennai, and Dr. Satish Kumar, Head, Department of Chemical Engineering, SSN College of Engineering, participated as special guests and briefed the students on the importance of nanomaterials and their applications in various fields. Dr. Elangovan, Principal of Dhanalakshmi Srinivasan Engineering College participated in this workshop and gave a felicitation address. Vice Principal Dr. Sridevi delivered the welcome address. In addition, Controller of Examinations Dr. Velmurugan, Dean (Academic) Dr. Anbarasan, Dean (Research) Dr. Sivaraman, heads of departments, professors, and students

participated in this workshop. Dr. Ramyadevi, Head of the Department of Chemical Engineering, delivered the vote of thanks.
