

# STUDENTS PROJECTS

Our 3rd Year C (AI&DS) 2023 to 2027 Batch of 6 Students team is among the Top 29 teams selected across the country and has been invited to participate in the FINALS to be held at Cuttack, Bhubaneswar, Odisha, from December 5 to 12, 2025

The team participated in the Smart India Hackathon 2025, Sri Sri University, Bhubaneswar–Cuttack, with a project titled “**AI-Driven Healthcare Disease Diagnosis by Chatbot**” under Problem No. 25049. The team comprised **V. Vijayagowtham , T. Sugumaran, N. Yasvanth Kumar, S. Zeeshan Ahmed Ali, S. Sugaina, and S. Yogeswari**, who collaboratively worked on designing and developing an innovative AI-based healthcare solution. The project focused on leveraging artificial intelligence and chatbot technology to assist in disease identification and preliminary healthcare guidance, demonstrating technical competence, teamwork, and a strong commitment to addressing real-world healthcare challenges through intelligent systems.
