

Governing Body:

Governance is the main activity that links the community, students, faculty, staff, and management is governance. In carrying out its responsibilities, it should, in our opinion, be economical, effective, and efficient. We advocate for appropriate administration and modern governance, and we think they should be implemented in a way that actively recognizes variety, respect identity and serious beliefs, and represents balance.

Adhering to the UGC Guidelines for Autonomous Colleges, the autonomous Institution's governing body is reframed in an organized manner to foster the Institution's growth in all areas while being overseen by the management members. The committee's main goal is the ongoing development of the college and its students. Typically, the governing body meets once a year to discuss the implementation of procedures and the courses of study. Meeting minutes are kept up to date on a regular basis. The members of the governing body are listed below:
